A TORPEDO AIR SHIP.

Warranted to Kill 500,000 Men an Hour if They Can be Found.

An aerial torpedo war machine, self-elevating and self-propelling, capable of carrying twelve men and over 25 tons of ammunition and explosives, and with a steering apparatus capable of directing the boat in any direction against the wind, no matter how high, is the latest thing to which the attention of the government has been invited. The inventor is P. W. Anderson, of this city, who has been working upon the machine for fourteen years.

Mr. Anderson does not claim much for his machine. He limits its destructive powers to 500,000 men and 200 modern warships per hour. He has also invented a submarine boat which he guarantees will descend 60 feet below the surface and remain an indefinite period. Forty-six knots an hour will be its speed on the surface. The war machine can be built ready for action in two months.

If Spain only had 200 ships and a half million of men lying around loose somewhere, Uncle Sam might take up with the Anderson war machine project, just for the sake of having an hour's fun in wiping them off the face of the earth. As it is, the government is now figuring upon raising Spanish ships instead of sinking them.—Chicago Inter-Ocean.

CURSE COST HIS LIFE.

Tragic Street Murder Caused By Politics.

Versailles, Ky., Sept. 1.—As ex-Senator Blackburn's lifelong friend, Andrew F. Steele, fell pierced by three pistol bullets this afternoon, the ex-Senator caught him in his arms. He ministered to the stricken man until death ended his sufferings three hours after the shooting.

Merritt Hughes, the slayer of Blackburn's friend, is a wealthy lumber merchant, 50 years old. He and Steele, who was about 60 and a well-known horseman, had been enemies for some time. When they met on the street this afternoon Steele, who had been drinking, began cursing Hughes.

The latter fired four times at his enemy. The first shot took effect in the right side, and as Steele turned to retreat Hughes put two shots into his left side about seven inches apart. The fourth shot missed, as it was fired while Steele was falling into Blackburn's arms. Hughes surrendered to the authorities and was placed in jail. He has a large family. Steele was unmarried.

Undertaker Kenay Kills Himself.

His mother died three months ago and two months ago his wife gave birth to her fifth child. Kenay immediately began to drink, and his physician told him that he would have to stop drinking or it would cause his death. He replied that he didn't care and that he preferred death. He leaves a wife and five children.—New York Sun.

DAMAGE BY THE STORM.

Six Counties Under Water—Eight Inches of Rain in 12 Hours.

Atlanta, Sept. 1.—The storm which has swept over southeast Georgia for the past few days, has put six counties under water and paralyzed railroad and telegraph communication in that part of the state.

Armies of railroad men are at work on all lines affected, but are making poor progress, as the rain continues. Many trains from Atlanta and the north and west, are at Tennille, Ga., unable to move. A night train on the Central of Georgia, ploughed through the three feet of mud to reach that point last night, and the passengers are here as guests of the city.

Eight inches of rain fell at Tennille in 12 hours and the wind reached a velocity of 60 miles an hour. Bridges were wrecked and houses and trees blown down, but so far as known no lives were lost.

The damage to bridges and roads alone in Washington county is about \$15,000. Atlanta received a touch of the storm today. The wind reached a velocity of 35 miles an hour and the rainfall was very heavy.

BOOKER T. WASHINGTON.

Will Make an Address at A. & M. College Sunday Afternoon.

At the suggestion of Mr. Morris K. Jessup, the treasurer, and Dr. J. L. M. Curry, the secretary, the Slater Fund board of trustees has arranged for Principal and Mrs. Washington, of Tuskegee, to address a number of meetings in the cities of the southern states during the present year. The meetings begin in North Carolina and South Carolina in September and later other states will be visited. The general plan of these meetings will be for Mr. Washington to speak to the masses of the people in some hall or church at night. On the following day Mr. Washington will speak to the ministers and teachers only, and Mrs. Washington will address a separate meeting of the women. The subjects treated at these meetings will be the moral, physical, industrial and educational condition of the Negro race.

Mr. Washington will address the citizens of Greensboro and vicinity Sunday, September 4th, at four o'clock p. m. in the chapel of the A. & M. College. Mrs. Washington will speak to the women only at 5:30, same day, in the A. M. E. (Bethel) church. Mr. Washington, Monday, at 9:30 a. m., will speak to the teachers and ministers at Bennett College.

Let everyone turn out to hear them. The following somewhat ambiguous paragraph appears in a recent issue of the London Figaro: "I regret to learn that the Emperor William fell from his horse on Saturday last at Wilhelmshafen, but was not killed."

TROUBLE IN MADRID.

A Dead-Lock Over the Appointment of the Peace Commission.

Madrid, Sept. 1, 10 p. m.—The dead-lock over the appointment of the members of the peace commission continues. The cabinet sat this evening in concert, the queen regent presiding. Lieutenant General Correa, minister of war, read a dispatch from General Rios, acting governor general of the Spanish territory in the Philippine Islands, announcing that he had acceded to Admiral Dewey's request to open Philippine ports, according to El Heraldo, is trying to persuade the Duke of Tetuan, now leader of the dissident conservatives, to join the peace commission.

11:30 p. m.—Tonight several members of the chamber of deputies have expressed a strong belief that a cabinet crisis will follow immediately on the meeting of the cortes.

WANTS TO SAVE THE COLON

Hobson Prosecutes the Work After Authorities Give It Up.

Santiago, Aug. 31.—Lieutenant Hobson decided today to continue his efforts to save the Cristobal Colon despite the decision of the navy department to give the job up. He received news of the department's decision today, started for the scene of the wreck and ordered the wrecking tug to continue work, saying he would take the responsibility for his action. He sent urgent dispatches to the navy department, asking leave to continue the work. He estimates the Colon's worth at \$3,000,000, and thinks it is disgraceful to give up the attempt. If the government refuses to back him he will appeal for a popular subscription. The Maria Teresa will soon be in first class shape.

REIDSVILLE'S RALLY.

As was told in our news columns last evening the democratic rally at Reidsville was a success. We placed an estimate on the attendance at five thousand. Many think this estimate too small, and insist there were at least six thousand people there.

At any rate the crowd was as large as any one man could talk to at one time. The committee on arrangements had provided a bountiful barbecue, and not only were the people treated to a feast of intellectual things, presented in a masterful and convincing manner, but the inner man was abundantly cared for. The tables groaned with its burden of barbecued beef, sheep and pig.

There was an unusually large number of old men present—men who were tottering and feeble, whose heads are gray, men who said for a few years they had not taken much interest in politics, but who are now thoroughly aroused to the duty of white men.

And this was not all; there were many honest populists present who listened attentively to the speakers and thereby showed that they were interested—a thing which has not happened before at a democratic speaking (until this campaign) in six years.

And this was not all; there was between one and two thousand ladies present, old, middle-aged and young. There was the aged grandmother, the middle-aged woman who had left the cares and business of her household, and they listened closely to the speakers; and there was the blooming and blushing and beautiful young woman lending her presence and her smiles in the interest of the common cause of the white people.

The speaking was logical, forceful and eloquent. Each speaker deserves a new laurel for the effort made yesterday. A. L. Brooks, who was the first speaker, made a brilliant, spirited and effective appeal and was followed by Governor Jarvis, who warmed up to his work and made of the grandest speeches of his life. Hon. J. S. Cunningham made a short speech and dinner was announced.

After a recess of one hour, Hon. W. W. Kitchen made a speech which was a convicting arraignment of the republican party for the many evils of government under which we live. He spoke for one hour and forty minutes and the speaking closed with a spicy

and entertaining talk by Hon. Cyrus B. Watson.

Col. J. R. Webster and Capt. A. E. Walters had the directing of the affairs of this great occasion and handsomely did they perform their duties. We are under obligations to them for courtesies extended us, on this, our first visit to Reidsville.

The Thomasville News is evidently in favor of doing no harm. It is bound to dance to the music of the machine. It feels compelled to print what the high priest says but while it does so it offers a remedy for the pain inflicted by each item. For instance, the News' editorial page this week is for the most part made up of clippings from the Caucasian, sandwiched with advertisements of DeWitt's Little Early Risers, Brown's Iron Bitters, One Minute Cough Cure, and DeWitt's Witch Hazel Salve. It is hoped that some of these remedies will arrest the disease.

The Goldsboro Headlight is eleven years old. This week's paper says it begins its twelfth year under more favorable prospects than ever before. Continued success to it.

The Chatham Record is free. It was twenty-one years old yesterday. The Record is one of the most ably edited weeklies in North Carolina.

FUNNY ADVERTISEMENTS.

Queer Antics Played by Words in Faulty Construction.

Curiously worded advertisements, which are funny without intent, are common in the London papers, it would seem. A contemporary recently offered a prize for the best collection of such announcements, and the following is the result:

Annual sale now on. Don't go elsewhere to be cheated—come in here.

A lady wants to sell her piano, as she is going abroad in a strong iron frame.

For sale—A pianoforte, the property of a musician with carved legs.

Wanted—A room by two gentlemen about thirty feet long and twenty feet broad.

Lost—A collie dog by a man on Saturday evening answering to Jim with a brass collar round his neck and a muzzle.

Wanted—By a respectable girl, her passage to New York; willing to take care of children and a good sailor.

Mr. Brown, furrier, begs to announce that he will make up gowns, capes, etc., for ladies out of their own skins.

Bulldog for sale; will eat anything; very fond of children.

Wanted—An organist and a boy to blow the same.

Wanted—A boy to be partly outside and partly behind the counter.

Wanted—For the summer, a cottage for a small family with good drainage.

Lost—Near Highgate archway, an umbrella belonging to a gentleman with a bent rib and a bone handle.

Widow in comfortable circumstances wishes to marry two sons.

To be disposed of, a small phaeton, the property of a gentleman with a moveable headpiece as good as new.

The last is a copy of an inscription painted on a board which adorned a fence in Kent:

Notice—If any man's or woman's cows gets into these here oats, he or her tail will be cut off as the case may be.

THE GOVERNMENT HESITATES.

Revision of Dreyfus Case Favored by Public Opinion.

Paris, Sept. 1—The continued silence of the government as regards the Dreyfus case causes numberless speculations. Repeated consultations between the ministers of justice and war confirm the information that the government is disposed to grant a revision of the case, and is considering the most suitable procedure. Public opinion favors revision as the only satisfactory issue. Reports of the resignation of General Pellieux and the arrest of Deputy DuClam are unfounded. The stories that Colonel Henry's suicide was due to official pressure are not credited.

Shot By an Ancient Enemy.

Versailles, Ky., Sept. 1—Andrew F. Steele, while standing by the side of ex-Senator Blackburn, whose political supporter he has been for many years was this afternoon shot by an old enemy, Merritt Hughes. Steele died three hours later. Hughes had been warned that Steele might take advantage of him at an inopportune time, so when the men met this afternoon and a war of words was begun, Hughes forestalled an attack by shooting Steele, who was, however, unarmed. Hughes gave himself up and is now jail.

RAPIDLY GROWING.

An Unmistakable Demand For Good Roads.

An unmistakable demand for good common roads is being heard in all parts of the United States. This demand is rapidly growing in volume and is taking on the systematic organization which is essential to the success of such a movement. That bad roads in this country cause an enormous loss of money each year to those who use them may be easily proved, but this fact is veiled from many persons because they have never known anything better. The farmers are the greatest sufferers. Where wagon wheels sink hub-deep in mud at some seasons, a farmer who has much hauling to do must keep one or two more horses than he would need if he had only hard, even roads to go over, and his loss in the wear and tear of horse flesh and harness and wagons is a heavy tax on his income. It often happens that a farmer finds the roads absolutely impassable with a loaded wagon just at a time when his produce would bring the highest price if he could haul it to a railroad, and he is forced to wait and take a lower price later. Livery stable keepers and all other owners and users of horses and vehicles suffer in a like way.

In order to obtain better roads two things are necessary. The first is to create a general conviction that the improvement of our highways is imperative, and that money wisely expended for this purpose is sure to return. The second requisite is to place all road making and mending under the charge of competent road builders.

Various efforts to secure these ends are being made and the aid of county and state authorities, and even the national government has been invoked to further the movement. While it is very desirable that the highways of adjoining localities should be under some central supervision, so that they may be made to form a connected whole, it may be questioned whether the national government could be an effective agency in road improvement. Why, for instance, should the dwellers beyond the Mississippi and on the Pacific Coast be taxed to maintain in Washington a school for road engineers and a museum of road construction that few, if any, of these distant communities could derive any benefit from? A more practical scheme would be to have instruction in road engineering given at each of the state colleges of agriculture and mechanic arts.

In a country showing such wide differences in soil, rainfall, temperature and topography between different sections as the United States does, road building can be taught and administered far more efficiently by the state or the county than by the nation.

There is need of much intelligent care in framing legislation in the interest of the movement for better roads. Annoying prohibition should be no part of the policy of the road reformers. For instance, large loads carried on wheels having narrow fellos and tires do great damage to roads; hence it has been proposed to prohibit narrow tires on heavy wagons. A much better policy is that adopted in Michigan of giving a reduction of one-half their road tax to those who will use broad tires. The movement for good roads shows a lusty vigor. The success that it has already achieved is splendid testimony to the efficiency of voluntary association of individuals, and if its leaders continue to carry it on without the paralyzing patronage of the general government it is likely to attain great results.—Popular Science Monthly.

The South Carolina Election.

Columbia, S. C., Sept. 1—Out of a total vote accounted for up to midnight tonight, of 96,173, Governor Elbeeb leads with 24,716, and will have to make the second race with the prohibition leader, Mr. Featherstone, who comes second with 14,914. Ex-Congressman Tillman is in third place with 10,321.

Very nearly all of the counties have reported officially tonight. Beaufort is the only county from which absolutely nothing has been heard.

The returns are not yet sufficiently completed to indicate conclusively results as to the other state officers. Congressman Strait has been beaten in the Fifth District, Messrs. Barber and Finley entering the second race.

Chicago's peace celebration will be held on October 18, and will consist of an open air reception to President McKinley and the returned soldiers, at which Grand Army veterans and ex-Confederates will march together as a guard of honor for the president.

Messrs. Hudson, Sharpe, and Whit-

on a coon hunt and caught one last
night which was so old as to be almost
toothless. Coon hunting is fine sport
they say and parties go from South
Greensboro right often to try their
luck at it.

A hospital train passed through this
afternoon enroute to Baltimore from
Fort McPherson, Atlanta and Hunts-
ville, Ala. Some of the soldiers were
convalescent and able to sit up and
travel in regular cabs, though many
were critically ill and occupied Pull-
man sleepers.

All the early trains on the Southern

northbound vestibule due here at 10:43
was delayed by washouts between At-
lanta and Mt. Airy, Ga., and reached
here at 7:10 this morning. This de-
layed the Southern vestibule and the
8:50 train was also 20 minutes late.

The South Side fire boys will give

Disgusted With Negro Supremacy.

In Martin county there is such a
change among decent white folks as
has never been seen. From every sec-
tion of the country comes the most en-
couraging news, for the people are
disgusted with negro supremacy. Never
before have negroes sat in judg-
ment on our school boards to say to
whom our children shall go to school.
We never thought we would live to
see a negro magistrate in Martin
county. In some townships that cast
over 40 votes last election there is not
one white anti-democratic vote now.
They are coming home to their first
love, the white man's party.—Green-

JOSEPH WAS ASSAILED

And Used His Old Rusty Knife in
Self Defence.

A recruit was received at the jail
about four o'clock this morning.
A deputy sheriff brought Joseph Jones
from near Summerfield, Sheriff Hos-
kins' home. Joseph is an innocent
looking colored boy, and says is 17
years old and for some time has been
a faithful and devout member of the
Methodist church at Summerfield and
is prepared to die, which he came near
doing a short while ago.

He was riding in a wagon talking to
a girl when the driver became jealous
and ordered Joseph to vacate. Joseph
had paid his fare and justly refused to
dismount. At his refusal the driver
became enraged and grabbed Joseph
and a horsewhip at the same time. With
the latter the driver pounded the for-
mer over the head until the whip was
in fragments and Joseph's head was
fearfully enlarged. Joseph would not
yet consent to dismount and the driver
began beating him over the back with
a board.

By this time Joseph had forgotten
all his Sunday school teachers' words
about returning good for evil and be-
fore he thought, he had slipped his
knife from his pocket and almost am-
putated his assailant's arm and carved
a long gash on his forehead.

Joseph was arrested for using a
deadly weapon. He is looking for some
of his home folks to take him out of
jail, but as yet none have volunteered.

Fire Yesterday Afternoon.

The fire alarm was turned in yester-
day afternoon about 4 o'clock. The
kitchen of No. 400 South Spring street
was ablaze and burning rapidly when
the Eagle and Protector Hose Compa-
nies reached the scene. They quickly
connected about 900 feet of hose and
soon had a stream of water playing on
the flames. The fire was quickly exting-
uished, the damage being about \$100.
The house is occupied by Mr. Stewart,
of the Cone Export and Commission
Company. The fire originated from a
gasoline stove.

I WILL sell on tomorrow, in front
of court house, furniture, springs,
chairs, 1 cook stove and 2 heaters and
other articles. J. R. Pearce, Auction-
